

# AWRA 2026 GEOSPATIAL WATER TECHNOLOGY CONFERENCE

MAY 18-20 | NIAGARA FALLS

## WHY ATTEND?

AI and emerging technologies are reshaping water resources by integrating complex data, improving solutions, and supporting informed decision-making. The AWRA 2026 Geospatial Water Technology Conference (GWTC) brings together professionals to share work, connect, and apply data science and technology to real-world water challenges.
