

A SYMPOSIUM IN HONOR OF DAVID MAIDMENT: GIS in WATER RESOURCES and MORE

"It is as important to represent hydrologic environments precisely with data as it is to represent hydrologic processes with equations." – David Maidment

JOIN your fellow water resource industry professionals in Austin, TX as we host a **reception and symposium** to honor the work of Prof. David Maidment who has been at the forefront of advances in the application of geospatial technologies for Hydrology and Water Resources spanning a 40-year career.

ATTENDEES can expect a deeper understanding of the subjects where Dr. Maidment has worked, notably:

1. The US National Water Model
2. Broader Applications of GIS
3. Flooding

DATES & TIMES

May 11, 2022 | 6:00 PM – 8:00 PM CT

Reception

May 12, 2022 | 8:30 AM – 4:00 PM CT

Symposium

REGISTRATION

GWTC & Symposium: [Register](#)

Symposium (\$65): [Register](#)

Reception Only (\$40): [Register](#)

LOCATION

Austin Marriott South

4415 South IH 35, Austin, TX 78744

Lone Star A-C

CO-LOCATED with the **AWRA 2022 Geospatial Water Technology Conference (GWTC)** and **sponsored by CUAHSI** (Consortium of Universities for the Advancement of Hydrologic Science, Inc), the symposium will bring together former students and colleagues to reflect on Maidment's work and its importance for future research and applications in this area.
